Obituary of Napoleon. When the great Napoleon died there were doubtless among the readers of the London Globe many persons who would have liked to read a full account of his life, but if so, they were disappointed, for the Globe in its issue of July 4, 1821, contained only the following brief notice:

"Death of Bonaparte. We announce the death of Bonaparte. The official announcement was received this morning at the admiralty. His death took place on June 5. His health had been declining for a long time, and the cause of death was a cancer in the stomach. He was born in 1769. The cost of his maintenance at St. Helena was each year between £200,000 and £300,000."

### The Chu-Chu Helps the Marshal.

While the City Council sat discussing the question of how to catch four cows that were molesting the gardens of the city the southbound passenger train Monday night solved the question. The four cows in question have been the cause of a great deal of complaint of residents of the south part of the city, and the marshal had about exhausted his efforts in trying to impound them.

While evidently on their way to someone's garden Monday night they disrupted the right of way with the passenger train with the result that they were ground into material for sausage. That they did not derail the train is a wonder, for they were evidently all bunched on the track together. One or two steps were knocked off the coaches as it was.

Three of the cattle were the property of Ichabod Dougherty and the other was owned by William Revels. The animals were cut up so bad that they were not worth skinning.

### No Additional Trains Until January.

It is quite probable that there will be no change in the schedule of the Florida East Coast Railway until about the middle of January. This summer the company has run two through trains from Jacksonville to Miami, and they will be sufficient to handle the traffic until the large East Coast Hotels open. Heretofore in the summer time there has been but one through train, which necessitated putting on an extra train about this season of the year.

Grover Gwinner has accepted a position in Clark's Book Store.
